NEW TREND in Examining Rare Coins

If you have recently attended rare coin auction sales, you may have observed that the latest trend in examining rare coins is in a darkly lit room and a powerful single source of lighting. The purpose behind this type of viewing is rather simple. By eliminating outside light sources and allowing a single powerful light source to provide the lighting, we find that glare is no longer a problem and the coin can be maneuvered to provide more controlled visibility.

The interesting feature here is that this manner of viewing coins is being utilized by several of the major grading laboratories and thus by utilizing the same principle, one is more likely to be able to examine a coin and better ascertain how the coin will be graded if sent in for a certificate.

We are pleased to announce that Superior Stamp & Coin is distributing both the light source and the magnifier which are being used to grade coins by some of these grading laboratories. It has been no secret within the trade that our line of halogen lights and magnifiers have been great sellers. We are pleased to provide this listing of our more popular products. We have placed an asterisk beside the two items being used by these laboratories. All represent great quality and will serve you for many years.

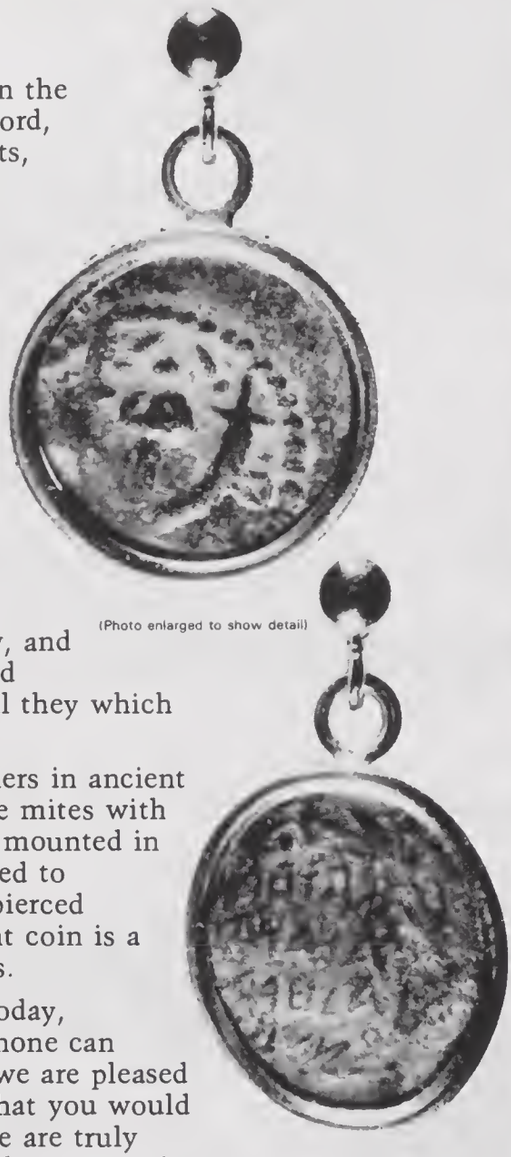
GENUINE 2000 YEAR OLD "BIBLE COINS"

Have been transformed into unique pieces of jewelry that will bring the wearer inspiration...and compliment!



(Photo enlarged to show detail)

Long before there were coins, gold jewelry was used as money. In the time of Moses: "We have therefore brought an obligation for the Lord, what every man hath gotten, of jewels of gold, chains, and bracelets, rings, earrings, and tablets, to make an atonement for our souls" (Numbers 31:50).

About one thousand years after Moses, the Judaeans struck their first coins - small bronzes called "prutahs," "leptons," or "mites." The Maccabean rulers John Hyrcanus (135-104 BC) and Alexander Jannaeus (103-76 BC), issued coins with the design of a double-cornucopiae (horns-of-plenty) and an ancient Hebrew inscription indicating that they were authorized by "the High Priest and community of the Jews." This design continued to be used until the fall of the Maccabean dynasty in 37 BC; they were still in general circulation during the lifetime of Jesus.

These Maccabean bronzes are likely candidates as the famous "Widow's Mites": "And Jesus sat over against the treasury, and beheld how many people cast money into the treasury; and many that were rich cast in much. And there came a certain poor widow, and she threw in two mites... And he called unto him his disciples, and saith onto them... that this poor widow hath cast more in, than all they which have cast into the treasury." (Mark 12:41-43).

Superior Stamp and Coin Company, one of America's major dealers in ancient Biblical coins, has chosen genuine 2000 year old Maccabean bronze mites with legible inscriptions and designs, and natural patinas, to be custom mounted in glittering 14 karat gold frames (that precisely fit each coin), attached to matching 14 karat gold studs so that they can be worn as unique pierced earrings. Indeed, each pair is unique since every handstruck ancient coin is a somewhat different shape, and are minted from a multitude of dies.

Ancient coin jewelry is one of the most popular fashion trends today, with leading jewelers selling pieces for thousands of dollars... but none can have greater significance than our Bible Coin gold earrings which we are pleased to offer at the remarkably affordable price of only $99.50 (about what you would expect to pay for the coins alone!). Struck for ancient kings... these are truly "fit for a queen" today. This is a meaningful acquisition that will be treasured for a lifetime!

A Perfect Gift For Christmas!

STRANGE BUT TRUE FACTS

- ★ It is strange that a pagen object appears as one of the most popular symbols used on ancient Maccabean coins. In Greek mythology, it is related how the horn of the river god Achelous was wrenched off by Hercules, and became a horn-of-plenty (cornucopia).
- ★ It is strange that the archaic form of ancient Hebrew used on all ancient Judaean coins, probably could not be read by most of the people... but could only be understood by the priests!

AUTHENTIC GOLD NUGGETS

Always a popular item yet so seldom encountered are these gold nuggets. These were obtained from a mining project in Northern California and held by the seller for many many years until the most recent upward movement in the price of gold caught their fancy to sell.

When we have attempted to locate nuggets of this type in the past they in most cases were simply not available. When we have seen small amounts available they usually cost between 3 and five times the price of gold. Remember these are high quality nuggets.

Our supply of gold nuggets is limited to just 25 ounces. They go out at prices so fantastic that we must limit purchases and sorry the offer is only available to our regular readers who have an existing account number registered with us. Once supply is gone, sorry but it's all over.

We will offer these genuine California gold nuggets by their actual weight. For purposes of sale we use the standard "penny wieght" basis of which there are 20 penny weights to the ounce.

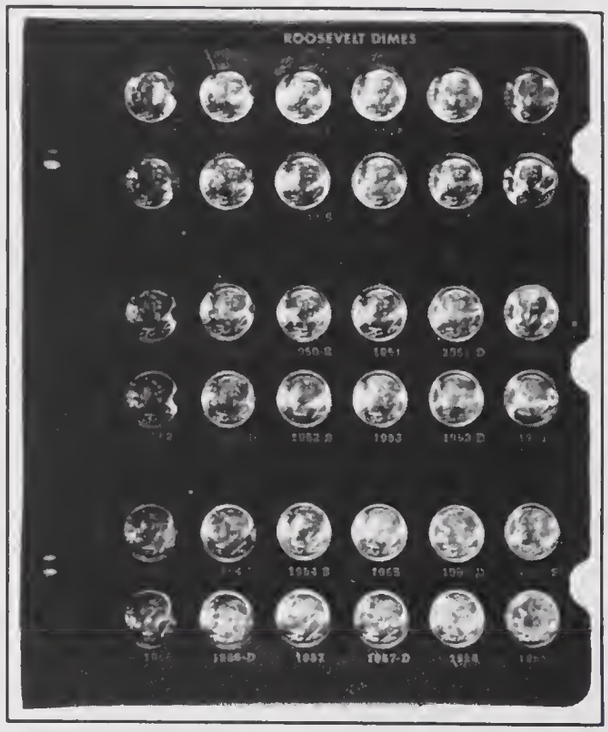
Even the early "S" Mint coins such as the 1949-S are really wonderful.



We think that while prices are depressed it is time to buy. The Roosevelt series is depressed because the values at this time are too low to slab. We think that this will change in the future thus making the set worth more money. Act quickly as we can only supply 50 sets.

THE LEPTON OF PONTIUS PILATE

Photo Enlarged

Pontius Pilate the procurator of Judaea, placed there by the Roman emperor Tiberius, is known to all for his delivery of Jesus to the crucifixion, April 17, A.D. 30:

> Matthew 27:14 -- When Pilate saw that he could not prevail, but rather a tumult was made, he took water and washed his hands before the multitudes saying, I am innocent of the blood of this person: see ye to it.

A further reference to Pontius Pilate is also found:

> John 18:28, 19:42 -- Pilate then went out into them, and said, What accusation bring ye against this man?....etc.

Coined in A.D. 30 - 31, each Pontius Pilate lepton we offer exhibits an augur's wand (appears as an upside-down umbrella handle), the famous telltale device which is totally unique to this coinage. This curious looking device relates to Pilate's position as an ardent believer in augury.

This type coin which was in daily use must have truly angered the Children of Israel. Ever since the time of Moses, Jews were taught the evils of divining or augury in any form.

Judaea
Bronze lepton of Pontius Pilate
Procurator under Tiberius, coined A.D. 30 - 31
Obverse: **Augur's wand encircled by the name Tiberius (nearly always illegible)**
Reverse: **The date of Tiberius' reign within a wreath.**
Condition **Fine, with the augur's wand clearly discernible.**

Subject: 6-8902-S; Sale of Foreign Coins

Dear Mr. Goldberg:

On June 16, 1989, the District's General Manager accepted your offer for the purchase of

We are passing on to our readers our good fortune in being awarded our bid to acquire literally tons of foreign coins which the good citizens of Southern California have dropped into the fare boxes of the thousands of busses that cruise this area. The successful bid took several trips for to complete the hauling and we want to move this massive group just as fast as possible. So let's get the price down and move it out. We took a sample look at one of these 50 pound bags and found a considerable amount of European coinage which has substantial face value. In addition we found very little copper coinage. There is a wide assortment of coinage from all over the world and we think that you will agree that these unsearched bags will at least provide you with some real enjoyment. Naturally we will not accept returns since we would never be able to know what was originally contained. We have decided to chop our price to a record low amount just to move them out.

These coins are among the most important pieces of Judaic numismatics produced between the end of the Bar Kokhba Revolt in the year 135 and the establishment of the State of Israel in 1948. And they are priced remarkably reasonably at under $100 each!

For many centuries, scholars have sought to solve the mystery of Hebrew letters found on Hungarian silver coins minted under Bela IV (1235-1270) and Stephan V (1270-1272)...concluding that they represent the initials of otherwise unknown Jewish mintmasters.

Thanks to research by Gyula Radoczy, amplified by Daniel Friedberg in his fascinating book "Medieval Jewish Seals from Europe," we now know the full identitiy of these Jewish Counts, who held high positions in the Hungarian government. Due to a very fortunate acquisition, Superior is able to offer a small quantity of Choice Very Fine examples of these 700 year old rarities, minted by father and son - Count Chenok and Count Altman.

Count Chenok is referred to in a document issued by King Bela IV in 1250, as "the Jewish Henel (Chenok) count of the royal chambers (treasury)." Friedberg's research indicated that "for services rendered, Bela granted a Chenok the fortress castle Komorm, 21 villiages, and the Tata mill." It is believe that coins were struck with his hebrew initial "chet" (ח) circa 1260.

After Chenok died in 1265, his fortress and mill were given to Queen Maria to settle outstanding debts. His son, Count Altman, then became a lessee of royal mints and struck silver coins with the Hebrew letter "aleph" (א) during the period 1265 to 1272.

Following complaints by Pope Urban IV about non-christian mint lessees, Hungarian King Ladislaus IV (1272-1290) continued to employ Jewish lessees of the royal mints, but forbade them from including Hebrew letters on their coins.

These coins stand as a unique and irrefutable evidence of a brief period of Jewish liberty in an otherwise almost uninterrupted 2000 year history of intolerence and persecution, ranging from the Maccabee's struggle for religious freedom to the Holocaust.

Ira Goldberg, who negotiated for this historic group of coins, indicates that "for all pratical purposes these are the only Medieval Jewish coins that can be bought, and once these are sold it is extremely unlikely that a similar opportunity will ever occur." Collectors will surely rank these among the rarest and most interesting items they own.

These Medieval Jewish silver coins are in Choice Very Fine condition and exhibit attractive natural antique cabinet toning.

Scholar Daniel Friedenberg aptly summed up: "It is intriguing to think of these unknown men, dead for over 700 years, whose sole stamp in history is a single Hebrew letter."

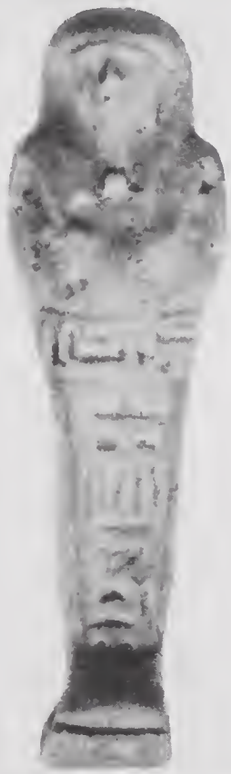
Ancient Egyptian Ushabtis



A special offering of beautiful blue faience ushabtis. Found at Sakara and dating from the Saite period (XXVIth dynasty) circa 664-525 b.c.

The ancient Egyptians believed that in the afterlife they would be summoned to work in the fields. Consequently, they provided themselves with ushabti figures to serve as substitutes to perform these tasks. Every important Egyptian was entombed with three hundred and sixty five ushabtis, one for each day of the year, plus an overseer ushabti for every ten regular ushabtis.

Our ushabtis hold a pick in one hand and a hoe in the other, and bear the inscription "May he be illuminated, The Osiris REDJY-M-HOTEP born of the woman MERYT". Each ushabti is fully intact, free of chips or cracks and each with clear hieroglyphic inscriptions. Each ushabti will be custom mounted on a clear Lucite stand.

Due to a most fortunate purchase, we can offer these outstanding ushabtis with the most unusual and personal inscription for only **$195.00** each. Accompanied by a Certificate of Authenticity with historical background.

SHARE IN THE TRADITION

THE OFFICIAL 1989 GEORGE BUSH INAUGURAL MEDAL

YOU CAN OWN A PIECE OF HISTORY

It's a noble American tradition. Every four years, voters from all over the United States celebrate their cherished freedom by casting a ballot in the presidential election — selecting one man to occupy the highest office in the land. On January 20th, 1989, George Bush — the popular choice of the 1988 election — will take the Oath of Office in Washington, D.C. and be sworn in as the 41st President of our country.

Now, you can share in the heritage and tradition of this important event with the Official 1989 George Bush Inaugural Medals, struck in gold, silver, and bronze.

PERSONALLY APPROVED

These coveted medals are the only officially authorized medals to be created for the occasion. The design has been approved by George Bush and by the Inaugural Medal Committee chaired by Senator Mark Hatfield, and endorsed by the American BiCentennial Presidential Inaugural Committee.

Each of these Inaugural medals will feature the official Inaugural portrait of George Bush, designed by the celebrated American sculptor Mico Kaufman. This is the fourth Inaugural medal produced by Mr. Kaufman, and is his best — a stunning and innovative work of art. The reverse is also an original design by Mr. Kaufman, featuring the 19½-foot high statue of "Freedom," which stands atop the United States Capitol Building.

Furthermore, these medals are superb examples of the minter's art. Each medal is being struck by the Medallic Art Company, a firm which has a history of producing Inaugural medals since 1925.

POPULAR AND HISTORIC

Modern Inaugural medals have become a highly collected series. Interest in them has skyrocketed in recent years, and past issues are eagerly pursued by collectors and dealers. Because of their historical importance and superb artistry, many of these medals occupy places of honor in the collections of our country's most discriminating numismatists.

SPECIAL OPPORTUNITY

The Official 1989 George Bush Inaugural Medals are a special opportunity for Americans to possess a "piece of history." It is a rare chance to own a limited edition collector's item that has been personally approved by the President, marks an event of great significance in the life of our nation, and is the classic work of a famous sculptor. These are medals that you will be proud to own — and proud to pass on to future generations.

RESERVE YOUR MEDALS TODAY!

Following the instructions of the Inaugural Committee, five important George Bush Inaugural Medal varieties will be struck. In addition, two strictly limited edition, serially numbered sets will be offered on a first-come, first-served basis.

200 YEARS OF TRADITION

The tradition of producing souvenirs to mark inaugurations began in 1789 with our first President, George Washington.

Washington ordered special engraved gilt buttons — featuring the Arms of the United States — which he used to adorn his brown inaugural coat. Word of this quickly spread, and by the time the Inauguration took place, others at the event had special buttons of various designs on their coats to commemorate the occasion. Thus, beginning with the first inauguration on April 30, 1789, Americans displayed their desire to own tokens of these historic events.

In 1901, the first official medal was struck for the Inauguration of William McKinley. Theodore Roosevelt chose Augustus Saint-Gaudens, the famed sculptor, to design his medal, and began the practice of selecting America's foremost artists to create these medals.

The 1989 Mico Kaufman-designed Inaugural Medal continues this proud practice. His stylish creation is the perfect medal to mark the 200th anniversary of an American tradition that allows you to hold art and history in your hand.

ABOUT THE SCULPTOR

Mico Kaufman, whose designs for the 1989 George Bush Inaugural Medal were approved by the American Bicentennial Presidential Inaugural Committee, was chosen Sculptor of the Year by the American Numismatic Society in 1978. He has designed several previous Inaugural Medals, including the 1973 Gerald Ford Vice Presidential medal, the 1974 Gerald Ford Presidential medal, and the 1985 Reagan-Bush Inaugural Medal. Kaufman studied Art at the Academy of Fine Arts in Rome and Florence, Italy, and his works have frequently been displayed in New England, where he makes his home. The stunning Inaugural portrait of George Bush marks another high point in Mr. Kaufman's long and illustrious career.

SILVER TETRADRACHMS MINTED IN THE HOLY LAND

Didius Julianus Buys Roman Empire At Auction!
Roman World Ruled By A Woman!
Aged Military Emperor Dies At York!
Christians Continue To Be Persecuted!
Caracalla Murders Own Brother!

Thus the A.D. late 2nd - early 3rd century headlines would have read, if there had been newspapers and enough people to read them. These coins do bear mute testimony to these and other events which shaped and shook the Roman empire during these difficult times. Our coins are virtually Mint State silver tetradrachms minted in the Holy Land and surrounding territories. Reminiscent of earlier Phoenician shekels, they boldly portray the emperor's portrait on the obverse and a majestic eagle on the reverse.

These thick, large coins had tremendous buying power in ancient times, much different than our near-worthless coins jingling in our pockets today. More like hundred-dollar bills, these coins were treasured and dreamt about 1800 years ago as they are today by those fortunate enough to possess one. Part of a relatively small hoard recently unearthed in the Middle East, they represent "the pick of the lot," being lustrous and virtually in mint condition. It is quite possible that these coins were part of a group minted to pay troops, as during the Severan dynasty there was much fortification and strengthening of military might at the frontiers.

Selected silver tetradrachms, subject to limited availability, minted during the Severan Dynasty in virtually Mint State condition are proudly offered at the following prices:

Caracalla A.D. 198-217
Silver Tetradrachms - **$350**
Order No. 02-059

Macrinus A.D. 217-218

The Ottoman Empire

The Terror of Christian Europe and the Empire that Helped Forge the Events of Modern History

The beginnings of the Ottoman are shrouded in legend and few historical facts are known about them before A.D. 1300. The descendants Empire of the Ottomans most probably were Nomadic people from Central Asia who were pushed into Asia Minor by other Nomadic tribes. From the very beginning they were at odds with the Byzantine Empire, the direct decendants of the Roman Empire of Caesar and Constantine the Great. This conflict finally culminated in the famous siege and sack of the Byzantine capital of Constantinople by Mehmed II, full development of the Renaissance in 15th Century Europe for many scholars, and ideas hidden in the East now found refuge and fertile ground in Europe to further develop and grow.

By the middle of the 16th century the Mediterranean Sea almost became an Ottoman lake, with just the areas covered by present day Spain, France, and Italy not being under Ottoman control. To help keep their foes at bay the Ottomans created an an elite military force called the Janissaries, made up of the children of the subject Christian population from the Balkans, brought up as Muslims, and trained as ferocious and invincible soldiers.

With such invincible foes as the Ottomans, the Europeans had to look for alternate routes to the East. This spurred the Portuguese explorers to find a sea route to India and the Orient, which opened up the Age of Discovery in Europe and the landing in the New World by Christopher Columbus.

The famous siege of Vienna in A.D. 1683, when the Ottomans were repulsed, proved to be the turning point in Ottoman history. For the next 200 years the Ottoman Empire suffered a slow decline but nonetheless played an important role in the political and military treaties and power struggles of Europe and the Middle East. The end of the once all-powerful Ottoman Empire, now called the "Sick Man of Europe," came after the close of World War I.

It should be noted that it was during the Ottoman rule that the roots of the foundation of the modern state of Israel came into play with religious tolerance being practiced by Ottomans. When the British captured Jerusalem in A.D. 1917, the Zionist movement was well under way.

We are pleased to offer golden treasures from this turhulent period. Each treasure is a gold Dinar minted by the Ottoman sultan during the 18th Century. None of these coins have images on them as it would have been sacrilegious. The Koran teaching specifically made this point. Thus, the Muslims, on their coins, developed the art of calligraphy to the height of perfection.

Each gold coin has on it the tughra, or royal monogram of the ruling Ottoman sultan. This tughra is similar to many monograms seen on Scandinavian coins. The Ottoman tughra usually contains the title "Khan" (lord), the sultan's father's name, and the epithet, "El Muzaffer Daima" (the Ever Victorious). In addition, each coin has inscribed on it in Arabic the mint of manufacture, usually Istanbul or Cairo, and the reigning sultan's accession date. These beautiful coins are lustrous and are as struck over 200 years ago

GENUINE OIL LAMPS FROM THE FIRST CHRISTMAS!

These ancient oil lamps were found in the hills of Judaea in the Holy Land. The oil lamp was probably the most important part of ancient life, as it provided light. The oil lamp was filled with oil poured into the center hole on top, with a wick inserted into the side hole. These were the same oil lamps used by the Maccabees in conjunction with the first celebration of Chanukah. These 2000 year old oil lamps are in superb condition. Pour in some oil put in a wick and strike a match, and they will light up a room as they did 2000 years ago! These 2000 year old oil lamps from the Holy Land would make a most unique gift.

Each lamp will be accompanied by a certificate of authenticity.

Only $47.50 each

All of the strips in the following special are PNC strips of three, and are in Fine-VF, NH condition. Scott #'s with an * are specially priced discounted from normal retail prices. All PNC guaranteed.

1963

FRANKLIN HALF DOLLARS

We don't have a crystal ball but we believe these coins have a rosy future. Struck at the Philadelphia mint in 1963, these were the last coins in the Franklin series which spans 42 years and has been obsolete for 27. With 1990 Redbook prices at $8.00 each in MS63, we think you'll find this special absolutely irresistible.
